Performance Summary of Electricity Distribution Companies

1	Period of Information Year of (FY) information including Date and Month (Start & End)	1st Oct, 2023 - 30th Dec, 2023	
2	Technical Details		
(a)	Energy Input Details		
(i)	Input Energy Purchase (From Generation Source)	Million kwh	12127.11
(ii)	Net input energy (at DISCOM Periphery after adjusting the transmission losses and energy traded)	Million kwh	11870.88
(iii)	Total Energy billed (is the Net energy billed, adjusted for energy traded))	Million kwh	10433.54
(b)	Overall Distribution (D) loss Details	Million kwh	1437.33
		%	12.11%
	Collection Efficiency	%	97.57%
(c)	Aggregate Technical & Commercial Loss	%	14.24%

** Note - It shall be mandatory to record the energy supplied separately for each category of consumers which is being provided a separate rate of subsidy in the tariff, by the state government, so that the subsidy due for the electricity distribution company is quarterly calculated by multiplying the energy supplied to each of such category of consumers by the applicable rate of subsidy notified by the state government.
